Cross Sectional Shape:

Flat

Width:

Between 0.310 inches and 0.330 inches

End Radius:

0.165 inches

Mounting Hole Diameter:

0.219 inches

Plate Thickness:

0.022 inches

Distance Between Mounting Hole Centers:

0.975 inches

Center Radius:

Between 1.000 inches and 1.050 inches

Prebent Locking Feature Location:

End

Special Features:

Forked shaped end

Material:

Steel, corrosion resisting

Material:

Stainless steel

Style Designator:

Double concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-c
