Width:

5.812 inches

Thickness:

0.250 inches

Length:

7.685 inches

Mounting Hole Diameter:

0.438 inches all holes

Mounting Hole Quantity:

3

Mounting Hole Type:

Unthreaded

End Application:

M578 vehicle family

Mounting Configuration:

2 holes in line 0.500 from bottom edge 2.625 c-to-c 0.750 from one end; 3rd hole 0.435 from other end 3.250 from bottom edge

Features Provided:

Raised surface

Raised Surface Diameter:

2.000 inches

Raised Surface Height:

22.000 inches

Special Features:

White enamel except inside diameter of post; mates w/plate 10919839

Material:

Steel comp 4130 and steel comp 1035

Material Specification:

Qq-s-635 federal specification 1st material response

Surface Treatment:

Enamel

Shape:

Special

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
