Diameter:

Between 1.692 inches and 1.695 inches

Thickness:

Between 0.017 inches and 0.019 inches

Machined Surface Finish:

Ground

Material:

Steel

Material Specification:

Sae 1060 to 1090 assn standard single material response

Fsc Application Data:

Gasoline reciprocating engine, except aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539r0
