Cross Sectional Shape:

Flat

Width:

1.000 inches

Mounting Hole Diameter:

0.500 inches

Body Width:

0.625 inches

Plate Thickness:

0.047 inches

Distance Between Mounting Hole Centers:

2.812 inches

Center Radius:

4.750 inches

Special Features:

Triangle shaped lug on each of two bottom corners, 0.375 in. Wide at base, 0.250 in. H

Material:

Steel

Material:

Steel

Style Designator:

Double concave

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T319-c
