Width:

0.875 inches

Thickness:

2.500 inches backset

Length:

7.750 inches

Design Type:

Latch bolt

Operation Method:

Outside key dead bolt and inside turn knob dead bolt

Face Shape:

Flat

Knob Quantity:

2

Bolt Type:

Regular bevel or universal

Features Provided:

Key plate and turn knob

Locking Mechanism Type:

Pin tumbler

Knob Shape:

Round

Special Features:

Operations method: knob when stop is set; case thickness: 0.625 in.Thk

Height:

5.500 inches

Material:

Iron case

Surface Treatment:

Enamel baked case

Shape:

Rectangular case

Style Designator:

Rectangular

Specification Or Standard:

85-d-2 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A10600
