Hole Diameter:

0.136 inches

Slot Width:

0.312 inches

Bolt Circle Diameter:

4.875 inches

Flange Thickness:

0.188 inches

Body Radius:

4.375 inches

Body Thickness:

0.562 inches

Securing Device Type:

Threaded fastener

Features Provided:

Sealing capability

Material:

Aluminum alloy 356.0

Material Specification:

Qq-a-601, t6 federal specification single material response

Surface Treatment:

Anodize

Fsc Application Data:

Telephone repeater

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
