Usage Design:

For mtg spring

Attachment To Item Supported Method:

Held in place by means of spring tension

Supporting Object/surface Attachment Method:

Friction mtd by means of spring tension

Material:

Steel, corrosion resistant

Material:

"steel, corrosion resistant"

Surface Treatment:

Passivate

Surface Treatment:

Passivated

Fsc Application Data:

Temperature datum valve assembly, turbo-prop engine, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08100
