Usage Design:

Centers and positions spring

Attachment To Item Supported Method:

Friction mtd by spring compression

Supporting Object/surface Attachment Method:

Friction mtd by spring compression on mated machined parts

Shock/spring Mounting Method:

N/a

Special Markings:

N/a

Material:

Steel, corrosion resisting

Material:

Stainless steel

Surface Treatment:

Nitrided

Surface Treatment:

Nitrided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08100
