Casehardening Indicator:

Casehardened

Flange Diameter:

0.499 inches

Overall Height:

0.437 inches

Body Outside Diameter:

0.499 inches

Body Inside Diameter:

0.313 inches

Special Features:

Open end chamfered at .02 in. With two side grooves of .093 dia. 0.127 in. From chamfered end; other end starts taper at 0.130 in. At 11 degree angle

Material:

Steel, qq-s-637, comp 1117 or steel, qq-s-637, comp 1118

Material:

Steel comp 1117 or steel comp 1118

Material Specification:

Qq-s-637, comp 1117 federal specification 1st material response and qq-s-637, comp 1118 federal specification 2nd material response

Surface Treatment:

Phosphate

Style Designator:

Parallel

Surface Treatment:

Phosphate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-a
