Width:

1.440 inches

Material Thickness:

0.059 inches

Length:

1.465 inches

Special Features:

Etorque=5 lb. In. At initial position and 8 lb. In. At final position; spring rate=0.333 lb. In./deg.; developed lg.=7.700 in.; heat treatment=stress relieve at 435 deg. F. For 30 min. After forming

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03100
