**Width:**

1.440 inches

**Material Thickness:**

0.059 inches

**Length:**

1.465 inches

**Special Features:**

Etorque=5 lb. In. At initial position and 8 lb. In. At final position; spring rate=0.333 lb. In./deg.; developed lg.=7.700 in.; heat treatment=stress relieve at 435 deg. F. For 30 min. After forming

**Material:**

Steel

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A03100
