Usage Design:

Centers and positions spring

Attachment To Item Supported Method:

Friction mtd by spring compression

Supporting Object/surface Attachment Method:

Friction mtd by spring compression on mated machined parts

Material:

Aluminum alloy

Material:

Aluminum alloy

Surface Treatment:

Anodize

Surface Treatment:

Anodized

Fsc Application Data:

Fuel system, aircraft turbo-jet engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T08100
