Usage Design:

Centers and positions spring

Attachment To Item Supported Method:

Friction mtd by spring compression

Supporting Object/surface Attachment Method:

Mtd 0.140 in. Diameter hole

Material:

Steel, corrosion resisting

Material:

Stainless steel

Surface Treatment:

Passivate

Surface Treatment:

Passivated

Fsc Application Data:

Filter, fuel aircraft engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T08100
