Usage Design:

Retains spring

Attachment To Item Supported Method:

Holds spring by attaching

Supporting Object/surface Attachment Method:

Attached by 5/8 in. -24 nef-2a thd

Special Features:

Drilled w/two 3/64 in. Air bleed holes at 3d degrees from center thd hole for spring adjusting screw

Material:

Aluminum alloy

Material:

Aluminum alloy

Surface Treatment:

Anodize

Surface Treatment:

Anodized

Fsc Application Data:

Actuator and valve assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
