Special Features:

4 piece assembly - slotted hex. Head screw, nut, left and right clamp, hot-rolled, smooth surface, electro-galvanized plating w/ zinc coating .2 to .5 mil, for indoor use; pipe size - 2in. Inside diam., o/d 2-3/16in. (55.8mm); thickness: 12 gauge (2.7mm); design load 800 lbs.

Material:

Steel, astm-a575

Material:

Steel, astm-a575

Surface Treatment:

Zinc and chromate

Surface Treatment Specification:

Astm-b633 ty3s1 assn standard single treatment response

Surface Treatment:

Zinc, astm-b633 ty3s1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-d
