**Core Diameter:**

0.250 inches

**Usage Location:**

Inside

**Unthreaded Blowoff Line Outside Diameter:**

0.250 inches

**Core Fusing Temperature Rating:**

180.0 degrees fahrenheit

**Special Features:**

Core material metal, fusible; core included; casing material steel, stainless; blowoff line type threaded; heat number stamped on core not included

**Thread Size And Series/type Designator:**

0.375-24 unf

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A539w0
