Diameter:

Between 0.4375 inches and 0.4385 inches

Thickness:

Between 0.290 inches and 0.310 inches

Material:

Aluminum alloy

Material Specification:

Ams 4120, t4 assn standard single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539r0
