Width:

10.500 inches

Edge Shape:

Rectangle, multi holes

Length:

26.250 inches

Hole Quantity Along Length:

62

Hole Quantity Along Width:

28

Securing Device Type:

Turnlock fastener

Material:

Magnesium alloy az31b

Material Specification:

Qq-m-44 federal specification single material response

Fsc Application Data:

Fuselage, airframe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
