Width:

Between 1.970 inches and 2.030 inches

Thickness:

1.000 inches

Length:

Between 6.970 inches and 7.030 inches

Mounting Hole Diameter:

0.179 inches all holes and 0.185 inches all holes

Mounting Hole Quantity:

8

Mounting Hole Type:

Unthreaded

Mounting Configuration:

There are two holes located from left end at a distance of 0.310 inch plus or minus 0.030 inches to bsc; the two holes are located 1.000 inches from bsc of two holes; there are two other holes at right end 6.375 inches from bsc of first set of two to bsc of first set of two to second set of two holes bsc; the first hole is located 1.188 from bsc of first set of two holes from left end and bsc of first hole, the second hole is located 1.300 inches to bsc of second hole, the third hole is located 1.100 inches from bsc of second hole, the fourth hole is located 1.600 inches from bsc of third hole bsc; all four holes are located 0.500 bsc between the two holes bsc of either end

Special Features:

The mounting holes are 100 degrees csk to a dia. Of 0.337 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment:

Anodize

Shape:

Rectangular

Surface Treatment Specification:

Mil-a-8625, type 2, cl 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0

Mil-std (military Standard):

Mil-a-8625 spec.
