Securing Device Type:

Friction catch

Special Features:

length 14.810 in; width 3.500 in; thickness 0.125 in; c/o (2) catch p/n 10884532; cover p/n 10873842-1; final protective finish: 7.3.1 of mil-std171 all over. Color of deposited film to be no darker than color 33481. Top surface finish 22.2 plus 30.2 or 30.3 of mil-std-171, color white; cover used on ammunition box in turrent

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, temp h32 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-std-171 spec.
