Cross Sectional Shape:

Flat

Width:

22.063 inches

Edge Shape:

Rectangle, no holes

Length:

8.000 inches

Corner Bevel Length:

0.250 inches

Body Thickness:

0.104 inches

Securing Device Type:

Special

Special Features:

One 1.000 in. Mounting holes on 1.500 in. Centers and located 4.000 in. From each end

Material:

Steel

Material Specification:

Qq-s-636, cond 2 federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
