Cross Sectional Shape:

Flat

Width:

14.780 inches

Edge Shape:

Rectangle, no holes

Length:

40.690 inches

Body Thickness:

0.388 inches

Securing Device Type:

Turnlock fastener

Special Features:

Emer generator selector valve, hydraulic pressure gage

Material:

Glass fiber

Fsc Application Data:

Fuselage, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
