Width:

0.500 inches

Thickness:

0.109 inches

Length:

2.625 inches

Mounting Hole Diameter:

0.175 inches all holes and 0.182 inches all holes

Mounting Hole Quantity:

4

Mounting Hole Type:

Unthreaded

Mounting Configuration:

The four holes are equally spaced distance 0.750 from center of circle to center of circle; the center of first hole is located 0.190 inches from left end; the four holes are located 0.250 inches from bottom of piece to center of holes

Special Features:

The holes are csk 100 degrees by 0.342 inch dia.

Material:

Steel comp 410

Material Specification:

Qq-s-766 federal specification single material response

Surface Treatment:

Passivate

Shape:

Oval

Surface Treatment Specification:

Astm a380 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
