Cross-sectional Shape:

Hexagon

Width Across Flats:

0.375 inches

Special Features:

Groove diameter 0.125 in nom; groove width 0.047 in nom; length 2.500 in nom; external thread length 0.328 in nom; first projection length 0.375 in nom; first projection diameter 0.164 in nom; first internal thread length 0.438 in nom; first internal thread characteristics 8-32 unc 2b rh; external thread characteristics 8-32 unc 2b rh

Material:

Stainless steel

Style Designator:

Projection one end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08900
