**Cross Sectional Shape:**

Arched

**Width:**

5.800 inches

**Edge Shape:**

Oval, no holes

**Length:**

9.500 inches

**Inside Corner Radius:**

13.060 inches

**Body Thickness:**

0.188 inches

**Securing Device Type:**

Threaded fastener

**Features Provided:**

Sealing capability

**Special Features:**

Rubber seal bonded to cover

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-250/5, t3 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A531c0
