Cross Sectional Shape:
Arched
Width:
5.800 inches
Edge Shape:
Oval, no holes
Length:
9.500 inches
Inside Corner Radius:
13.060 inches
Body Thickness:
0.188 inches
Securing Device Type:
Threaded fastener
Features Provided:
Sealing capability
Special Features:
Rubber seal bonded to cover
Material:
Aluminum alloy 2024
Material Specification:
Qq-a-250/5, t3 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A531c0
