Hole Diameter:

0.094 inches

Width:

Between 0.180 inches and 0.190 inches

Overall Height:

0.590 inches

Material Thickness:

0.064 inches

Length:

0.380 inches

Mounting Method:

Threaded hole

Distance From Loop Center To End:

0.280 inches

Loop/holding Dimension:

Between 0.298 inches and 0.305 inches

Special Features:

Boss located on longitudinal axis of base surface, 0.430 in. Lg by 0.120 in. W by 0.150 in. H w/45.0 degrees chamfer both corners; mtg hole centered on centerline spaced 0.060 in. From base surf

Material:

Plastic polyhexamethylene amide or plastic polycaprolactam

Material Specification:

L-p-410 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
