Securing Device Type:

Special

Special Features:

Oval shaped, 5.94 inches long, 4.68 inches wide, 1.04 inches thick.5 holes at various points around periphery

Material:

Aluminum alloy 355.0

Material Specification:

Qq-a-601, t51 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
