Special Features:

diameter 0.430 to 0.434 in; thickness 0.085 to 0.095 in; inside diameter 0.250 to 0.255 in; flange thickness 0.025to 0.030; nha 50230-7, 2995010653457

Material:

Steel, corrosion resisting

Material:

Stainless steel

Surface Treatment:

Passivate

Surface Treatment:

Passivated

Fsc Application Data:

Valve, air starting crossbleed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
