Securing Device Type:

Hinge

End Application:

An/alq-153 v; digital data signal processor test set

Features Provided:

Handle for opening, lifting, closing, or the like

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0
