Cross Sectional Shape:
Flat
Width:
5.900 inches
Edge Shape:
Rectangle, no holes
Length:
6.200 inches
Body Thickness:
0.063 inches
Securing Device Type:
Threaded fastener
Special Features:
Consists of eight0.750 dia. Holes and eight 0.136 holes
Material:
Aluminum alloy 5052
Material Specification:
Qq-a-250/8, h32 federal specification single material response
Surface Treatment:
Oxide film
Surface Treatment Specification:
Mil-c-5541, cl 3 military specification single treatment response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A531c0
Mil-std (military Standard):
Mil-c-5541 spec.
