Cross Sectional Shape:

Flat

Width:

5.000 inches

Edge Shape:

Rectangle, no holes

Length:

9.400 inches

Body Thickness:

0.060 inches

Securing Device Type:

Threaded fastener

End Application:

An/alq-99 (v) ; electronic countermeasures

Special Features:

Two 0.203 dia. Holes consists of one cover pn 4252419-5, two stud assembly pn 1450031-11, two washer, retaining pn 1450031-100, one label pn 3151754-1

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, h32 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
