Cross Sectional Shape:

Flat

Width:

4.230 inches

Edge Shape:

Rectangle, no holes

Length:

4.500 inches

Body Thickness:

0.020 inches

Securing Device Type:

Threaded fastener

End Application:

An/alq-99 (v) ; electronic countermeasures

Special Features:

Thirty seven unevenly spaced holes, two at 0.140 dia, thirty five at 0.250 dia

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, h32 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
