Cross Sectional Shape:

Flat

Edge Shape:

Rectangle, rounded corners, four ears and holes

Distance Between Holes Along Length:

5.750 inches

Distance From First Hole Centerline To End Along Width:

0.750 inches

Ear Radius:

0.500 inches

Body Thickness:

0.090 inches

Securing Device Type:

Threaded fastener

End Application:

2350-01-061-2445

Material:

Aluminum alloy 6061

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
