Cross Sectional Shape:

Flat

Width:

Between 8.955 inches and 8.974 inches

Edge Shape:

Rectangle, no holes

Length:

Between 7.650 inches and 7.669 inches

Body Thickness:

Between 0.047 inches and 0.053 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t4 federal specification single material response

Surface Treatment:

Oxide film

Surface Treatment Specification:

Mil-c-5541 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0

Mil-std (military Standard):

Mil-c-5541 spec.
