Overall Length:

4.600 inches

Overall Width:

0.625 inches

Material Thickness:

0.120 inches

Mounting Hole Diameter:

Between 0.250 inches and 0.312 inches

End Application:

Carrier, mlrs xm993

Hole Quantity:

2

Special Features:

Chamfer four corners 0.120 in. X 45 deg

Material:

Steel

Material Specification:

Qq-s-698 military specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 3 military specification single treatment response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0

Mil-std (military Standard):

spec.
