Securing Device Type:

Special

Special Features:

Width 5.650 in; length 4.895 in; height 4.080 in; end item lau-117a missile launcher

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, temper o federal specification single material response

Surface Treatment:

Chromate and paint

Surface Treatment Specification:

Mil-c-354, class 1a military specification 1st treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-c-354 spec.
