Diameter:

0.190 inches

Length:

Between 0.355 inches and 0.395 inches

Cross-sectional Shape:

Round

Material:

Copper alloy 360

Material Specification:

Qq-b-626, comp. 22 federal specification single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 3 federal specification single treatment response

Style Designator:

Internally threaded full length

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08900
