Width:

6.1 millimeters

Length:

8.8 millimeters

Action Type:

Spring

Operating Mechanism Location:

Both sides

Special Features:

Material is alloy, 8620-8630, killed, partially spheroidized, grain size 5-8; surface treatment is manganese, typem, or zinc, type z, per mil-p-16232, class1; heat treatment=austenitize in a carbonitriding atmosphere for 15 min., oilquench, temper for 1 hr. Min. To 15n 82-88; 1 hole 4.2 mm. Dia. And 9.6 mm. Deep; 1 hole 4.01 mm. Dia.

Material:

Steel comp 1340 case

Surface Treatment:

Phosphate case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A10600
