Tube Outside Diameter For Which Designed:
1.120 inches
Overall Diameter:
1.250 inches
Design Type:
Friction
Inside Diameter Length:
0.680 inches
Round Cap Outside Surface Condition:
Smooth
Special Features:
Color black no. 37038 fed-std-595
Material:
Aluminum alloy 2024
Material Specification:
Qq-a-225/6, alloy 2024, temper t4 federal specification single material response
Surface Treatment:
Anodize
Surface Treatment Specification:
Mil-a-8625, type 2 military specification single treatment response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A539k0
Mil-std (military Standard):
Mil-a-8625 spec.
