Diameter:

Between 0.120 inches and 0.130 inches

Length:

Between 0.495 inches and 0.505 inches

Cross-sectional Shape:

Round

Material:

Copper alloy 360

Material Specification:

Qq-b-626, comp. 22 federal specification single material response

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Style Designator:

Internally threaded full length

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08900

Mil-std (military Standard):

Mil-t-10727 spec.
