Diameter:

Between 1.303 inches and 1.313 inches

Thickness:

Between 0.062 inches and 0.067 inches

Machined Surface Finish:

Ground on one side

Material:

Nickel alloy

Material Specification:

Asmt b164 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539r0
