Diameter:

Between 0.424 inches and 0.428 inches

Thickness:

Between 0.059 inches and 0.061 inches

Special Features:

Top of diameter chamfered 45 degrees by 0.035 in. Depth

Material:

Steel comp 410

Material Specification:

Qq-s-763 federal specification single material response

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539r0
