Cross Sectional Shape:

Flat

Width:

7.000 inches

Edge Shape:

Rectangle, four holes

Length:

8.500 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

End Application:

Electric tachometer company distance indicator ul9102-1

Features Provided:

Observation facility and special marking

Material:

Aluminum

Material Specification:

Mil-a-17129 military specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-a-17129 spec.
