Diameter:

Between 0.240 inches and 0.246 inches

Thickness:

Between 0.023 inches and 0.027 inches

Machined Surface Finish:

Smooth

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, h32 federal specification single material response

Surface Treatment:

Nickel

Surface Treatment Specification:

Mil-c-26074, class 3, grade b military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539r0

Mil-std (military Standard):

Mil-c-26074 spec.
