Inside Diameter:

Between 0.319 inches and 0.324 inches

Outside Diameter:

Between 0.365 inches and 0.385 inches

Length:

Between 0.250 inches and 0.310 inches

Unthreaded End Diameter:

0.250 inches

Unthreaded End Length:

0.980 inches

End Connection Type:

Unthreaded

Refinement Medium Type:

Straining

Refinement Device Type:

Wire fabric

Material:

Aluminum alloy 6061

Material Specification:

Ww-t-700/6, t6 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A539t0
