Cross Sectional Shape:

Flat

Edge Shape:

Round, four ears and holes

Body Radius:

1.840 inches

Inverted Radius:

0.380 inches

Ear Radius:

0.020 inches

Body Thickness:

0.375 inches

Securing Device Type:

Special

Special Features:

Contains 4 holes 0.410 in. Dia

Material:

Steel comp 1015 or steel comp 1025

Material Specification:

Astma108 assn standard single material response or astma576 assn standard single material response

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
