Cross Sectional Shape:

Flat w/open center

Hole Diameter:

Between 0.341 inches and 0.354 inches

Width:

4.680 inches

Edge Shape:

Rectangle, multi holes

Length:

2.680 inches

Corner Radius:

0.370 inches

Hole Quantity Along Length:

2

Distance Between Holes Along Length:

2.000 inches

Distance From First Hole Centerline To End Along Width:

2.000 inches

Body Thickness:

0.250 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

End Application:

Univ engrg trac nsn 241000808710 0

Material:

Iron cast

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
