Design Type:

Solid

Special Features:

Dimensions in inches; 0.6900 long, 0.3580 diameter 0.4400 long, grooved 0.1430 from first end, 0.2070 wide, 0.2480 diameter deep, first end drilled 0.0890 spherical bottom hole depth 90 degree counter-sunk 0.1120-40uncj-3b diameter threads; second end 0.0780 diameter; 0.2500 long

Material:

Aluminum alloy

Material:

Aluminum alloy

Fsc Application Data:

Aircraft hydraulic systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-e
