Cross Sectional Shape:

Arched

Hole Diameter:

0.219 inches

Width:

6.750 inches

Edge Shape:

Oval, multi holes

Length:

8.750 inches

Inside Corner Radius:

11.453 inches

Body Thickness:

0.190 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

Special Features:

Twenty two equally spaced holes

Material:

Aluminum alloy

Material Specification:

Qq-a-250/24 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Ps13201, type 2, class 1 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531c0
